Geography | Define Geography at Dictionary.com Geography definition, the science dealing with the areal differentiation of the earth's surface, as shown in the character, arrangement, and interrelations over the world of such elements as climate, elevation, soil, vegetation, population, land use, industries, or states, and of the unit areas formed by the complex of these individual elements. Geography of the United States of America - ThoughtCo Geography and Climate of the United States The U.S. borders both the North Atlantic and North Pacific Oceans and is bordered by Canada and Mexico. It is the third largest country in the world by area and has a varied topography. Geography - Wikipedia Geography is often defined in terms of two branches: human geography and physical geography. Human geography deals with the study of people and their communities, cultures, economies, and interactions with the environment by studying their relations with and across space and place.

geography | National Geographic Society At the broadest level, geography is divided into physical geography, human geography, geographic techniques, and regional geography. Physical Geography The natural environment is the primary concern of physical geographers, although many physical geographers also look at how humans have altered natural systems. The Geography of Italy: Map and Geographical Facts Italy is a Mediterranean country located in southern Europe. It is bordered by the Adriatic Sea on the east coast, the Tyrrhenian Sea on the west or Mediterranean coast, and the Ionian Sea to the south. In the north, Italy is bordered by the countries of France, Switzerland, Austria, and Slovenia. Geography | Definition of Geography by Merriam-Webster studying the geography of the western United States the geography of the region matches ancient descriptions of the location of the lost city Recent Examples on the Web Languages carve it up in idiosyncratic ways, influenced by factors such as geography, climate, tradition, and values.
